PROFESSIONAL EXPERIENCE

WordPress Developer
ZaibTech Solution | 2021 - 2023

- Working as a PHP and WordPress Developer at ZaibTech Solution.
- I am responsible for developing and maintaining PHP-based WordPress websites. My duties included coding custom functionalities, implementing responsive designs, optimizing website performance, and ensuring cross-browser compatibility.
- Collaborating closely with the design and marketing teams to translate project requirements into functional and user-friendly solutions. Additionally, I actively participated in project planning, code reviews, and troubleshooting to deliver high-quality deliverables within specified timelines.
- I consistently demonstrated a strong commitment to excellence in web development and contributed to the success of numerous projects within the organization.

WordPress Developer Internship
InTouch Solution . | 2019 - 2020

- Embracing a continuous learning approach, I concurrently expanded my proficiency in PHP and WordPress technologies. My responsibilities encompassed coding dynamic features, ensuring responsive designs, and optimizing website performance to enhance user experiences.
- Working collaboratively with cross-functional teams, I contributed to the successful delivery of various projects, leveraging my skills in PHP and WordPress development.

WordPress Developer
Exact Theme | 2023 Present

- As a WordPress Developer at Exact Theme Solution, I ensure our themes and plugins function smoothly by handling technical troubleshooting, customer support, and development tasks to deliver high-quality solutions to clients.
- Technical Support
- Debugging and Troubleshooting
- Client Communication
- Development Support
